

## MONICA KU

Monica Ku is art as much as it is fashion. This is our chief executive designer's most personal and ultra-limited Haute Couture collection.

MONICA KU is essentially a series of art projects realized through fashion, and inspired by the designer's philosophical beliefs and her fascination with psychology and science.

The Collection is characterized by an ambiguous mood, a touch of suspense, and femininity through different elements of drapery and structural pattern. This is out of the box wearable artistry, avant-garde and experimental.

Hand-crafted using the most refined cloths and materials, these items are tailor-fitted for our valued clientele.

***"Oddness is more than just another fashion odyssey"***

***Monica Ku***

With a maximum 50 pieces per collection, a tailor-made service is available at House of IOCO for each customer who visits the shop and purchases one of these pieces.

This collection is for discerning women of all ages that seek the most exclusive designs and accoutrement for very special occasions.
